Foreword

With Remy's latest edition the Paper Money field enters its quietest period of all. Not that the field was quiet in the 1940's (quite the contrary), just that Remy's format of covering dealers who started in the 1940's leaves us little to discuss.

The 1940's as a decade was indeed a golden era for collectors of Paper Money, due to the disposal by Barney Bluestone of the fabulous Albert A. Grinnell Collection. The seven part sale of the Grinnell Collection (plus the eighth "cleanup" sale) remain to this day the finest and most comprehensive auction of U.S. Large Size Paper Money ever held, a crowning achievement of decades of dedication.

To put out Fixed Price Lists to compete with such a series of sales would have been futile, and few tried. This is in no way meant to denigrate the accomplishments of the dealers who started in the 1940's, for many made significant contributions to Numismatics; some as researchers and writers, some for their auctions, but virtually none in the field of Paper Money.

Foremost on the list would have to be the Katens - Frank and Laurese. No one can enter the field of Numismatic Literature without knowing their names. For many years they were the sole auctioneers of Numismatic Literature, and contributed to the building of virtually every important library in existence. P.H. Chase made his mark as one of the great researchers and collectors of the Confederacy. The Federal Coin Exchange held many great auctions, some with great Paper Money rarities. Gimbel's and particularly the Coin and Currency Institute under Robert Friedberg had a tremendous impact on the

Paper Money field. Bob Friedberg privately handled some of the greatest rarities in the field, without publishing a single list. His *Paper Money of the United States*, first published in 1953, was then and continues to be a tremendous asset to the field. Al Overton dominated the field of early Half Dollars, and his work continues to this day to be the standard reference. Harold Whiteneck and Arthur Conn conducted the 1960 ANA Convention Sale, with an excellent Fractional Currency Collection. Henry Grunthal and Hans Schulman both made lasting impressions in the field of foreign coins.

Yet Remy has asked that my introductions to his volumes concentrate on the importance of the dealer's Fixed Price Lists in my area of specializations, and for all the impact these giants of numismatics have had, curiously not one has published lists of any importance in the field of Paper Money. Perhaps it was Grinnell's dominance of the field with his seven sales in the 1940's. Perhaps it was heavy private buying by the likes of F.C.C. Boyd, Bob Schermerhorn, James Wade and others that made Fixed Price Lists an unnecessary expense. For whatever reason, we will have to wait till the 1950's and 1960's for the emergence of dealers specializing in Paper Money, and the reappearance of Fixed Price Lists important to the field.

Foreword

I was honored in 1988 in being asked by Remy Bourne to write the Foreword to his master work Volume One of "Fixed Price List & Prices Paid for Lists of United States Coin Dealers 1822-1900". I feel doubly honored in 1990 in being asked to write a Foreword to Volume Four, covering the period from 1940-1949. This volume well over 200 pages covers the activities of many dealers who were known to me and who through the years and beyond 1949 became friends. My coin and stamp shop in this period was the Milford Coin & Stamp Company in New Haven, Connecticut.

What can one say for this admirable undertaking that has not been said before? In Volume One, 1822-1900, after my Foreword, Pete Smith of Minneapolis, Minnesota was quite eloquent in his foreword as was Martin Gengerke of Woodside, New York.

In Volume Two, 1900-1924, the above two gentlemen had high praise and rightfully so for the new emmission, as did George Kolbe of Crestline, California.

In Volume Three, 1930-1939, found my good friend, Ken Lowe, master of the English language do a fine introduction followed by a foreword by Martin Gengerke and an analysis of Fixed Price Lists by Pete Smith. Also Wayne Anderson of Minneapolis, Minnesota, comparing Wayne Raymond's Standard Catalogue of United States Coins to Remy Bourne's "Standard Catalogue" of Fixed Price Lists — and rightly so.

Ben Douglas living in Maryland had a shop in Washington, DC. He had a fondness for United States Paper Money and many of his fixed price lists were on paper money. He also had 10 — 14 auction Sales with his friend Tom Warfield as D&W Auction Sales. Both Douglas and Warfield purchased many coins from my auction sales in New Haven. I recall delivering in person a large purchase of coins to his office in Baltimore, Maryland, when Warfield was an executive in a large insurance company. I then continued on to Federalsburg,

Maryland to deliver copy for the next auction sale to Jack Stowell of J.W. Stowell Publishing Company, publishers of The Numismatist, Stamp Journals and most auction catalogues in that period.

Michael Kolman of Cleveland, Ohio operated as Federal Coin Exchange later changed to Federal Brand Enterprises. He was in my opinion far ahead of the times. An entrepreneur not only of coins but of other items with no connection to numismatics. He conducted about forty auction sales including three ANA convention auction sales. He could be exasperating with his handling of some sales — 2 sales, at times three sales with different associations in different cities and perhaps a month apart. I considered Mike a friend.

A.J. Fink of Dayton, Ohio. This dealer well along in years would come to a convention with an egg-basket covered with a dirty cloth slung under his arm. I was flabbergasted the first time I saw him, until I was privileged to look into the basket. Real goodies, proof early dollars, proof patterns, uncirculated red half cents and large cents, etc. His Fixed Price Lists were generally handwritten and duplicated, although later he did use a mimeograph.

Gimbel's Coin Department — Robert Friedberg was the first successful person to operate a coin department in a department store. A previous attempt in the same store had failed possibly from thievery. Bob used his whole family and became successful. He is also the author of "United States Paper Money" now in many editions and "Coins of the British World" in one edition. I am honored to have presentation copy of both books. For the uninitiated, Friedbergs are from New York as well as Gimble's Department Store.

Henry Grunthal of New York was probably the first coin dealer to put out quality fixed price lists slanted to the ancient Greek, Roman and Byzantine coins. Henry did not have a shop, but operated mail order out of his home. His first three lists had two addresses, but later lists

showed a Post Office box. Henry's lists are from 1941 thru 1952. He was seen at local auctions and at parties given by Hans Schulman.

Jim Kelly of Dayton, Ohio. A wonderful person, albeit combative after two or three drinks. In 1947, in Indianapolis where I was conducting my 5th public and mail bid Sale, in conjunction with the Central States Numismatic Society I invited half dozen friends to dinner, Jim included. They had selected a Chinese restaurant. Halfway through dinner apparently for no reason Jim was in altercation with a roughneck. It earned him a nice black eye. However, Jim liked fixed price lists, particularly through a series that he called "Kelly's Coins and Chatter", much sought after today. The Katen library has a complete set of 126 issues bound by that master Alan Grace.

Frank J. Katen with Laurese Byrd Katen, — I would like to point out listed in Remy Bourne's Volume Four, our list No. 47, March 1969. This list of 128pp. consisting of nothing but Numismatic Literature is probably the largest such list ever published in the world. It was followed by two short supplements #47A, 8pp. and #47B, 4pp. of new acquisitions. In this same vein, I would like to mention that Auction Sale No. 43, held September 11-12, 1976, with 3419 lots is probably the largest Numismatic Literature sale ever held. It sold the libraries of Mr. Thomas Warfield, Mr. Jesse A. Yockers, Mr. Dick Perier and duplications from the Katen Numismatic Library.

Joseph French Maley of New York City. A fine organizational gentleman. Helped to organize the Middle Atlantic Numismatic Association, MANA. Volume 1, No. 1, of the MANA NEWS (Later the MANA JOURNAL) has the First Convention set for October 23-24-25, 1953. In it mentions the Executive Board composed of President Joseph French Maley, and the other officers. I believe he died as a result of an accident.

Edward Gans, (Numismatic Fine Arts), New York City. Fine printed lists with photographs were issued, generally of Ancient Coins. He later moved to California where he operated for awhile. Evidently selling

Numismatic Fine Arts to the present owner.

Abe Kossoff (Numismatic Gallery), New York and later moved to California with partner Abner Kreisberg. Abe was a fine promoter and liked fixed price lists, as well as a house organ with many coins to sell. Abe and I had differences during the ANA fracas, but we eventually became friends again in Switzerland — during the International Numismatic Congress in Berne and a week later in the International Association of Professional Numismatists convention in Interlaken. He later, as Executor of Sol Kaplan, gave me the Numismatic Library which we sold in Sales #41 and #42, March and September 1975.

Al C. Overton, Denver Colorado. A fine gentleman and still hale and hearty and attending A.N.A. conventions. He is also the author of a classic book, "Early Half Dollar Varieties 1794-1836.

Foud (Frank) K. Saab, Chicago. Operated from home with excellent material mostly gold, United States and foreign. In 1951 we were in Vienna having dinner in a popular restaurant. I spotted Frank and his wife Elizabeth coming in. I got up and asked them to join us which they did. After a fine dinner and much wine, we went to our cars. Frank was driving a Citroen with Lebanese license plates and I was driving a Studebaker with Connecticut plates. I followed Frank's car and we did Wien until the dawn hour.

Bill W.C. Sanders, New Haven, Conn. Bill in my opinion was the first dealer to deal in Numismatic Literature only. Once or twice he did pick up coins, but his heart was books. He was a linoleum and carpet layer — a look at his bulbous knees would give away his profession. He lived in a 6-family apartment house, and each family had their storage space in the basement. Bill used his space for shelving to house his stock of books. My large Coin and Stamp Shop in New Haven had become a hangout for collectors and Bill often visited me with some choice books in his arms. Bill Sanders was my inspiration for the love of numismatic literature. Mentioning the coin shop, made me think of others who often came in. Yale College was only 3 short blocks from the

shop. Among many visitors a law student Donald R. Miller, later wrote "A Catalogue of United States Store Cards or Merchants' Tokens. The Money of the Merchants." In 1962 I purchased about 60 books from Paramount. In a short time I sold out at \$6.50 to \$10.00. Several months ago, Kolbe sold a copy at auction at \$65.00. It still is a nice book. Another visitor or customer was John M. Coffey, Jr. who was going to Divinity School graduating as Reverend Coffey. He also became an author — in the token field — with Atwood's Catalogue of U.S. and Canadian Transportation Tokens, now in many editions.

Hans M.F. Schulman, of New York City. Hans and I became very good friends. In 1950 I went to Europe for personal reasons, to be gone seven months. Before I left I sold Hans my United States coin stock including 1950D rolls of nickels at face, a fine Speedomat for addressing envelopes with 8000 plates, and a Graphotype to cut these address plates. Also a brand new fitted safe, the first to be delivered after the World War II Shortages. The addressing equipment Hans later sold to Stack's. Hans was auction sale and fixed price list minded, between the two publishing possible a hundred. In 1972 Hans made the mistake of incorporating and allowing someone else 51% of the stock. He lost everything, even his personal library which he had kept at the office. He then went to live in Spain with his wife Zita. Although no longer a member of the International Association of Professional Numismatists, attended their yearly conventions as a guest of the Calico's of Barcelona, Spain. I had the pleasure of their company the last time in Oslo, Norway. Hans passed away early this year.

Paul S. Seitz, Glen Rock, Pennsylvania. Paul, a son-in-law of Thomas Elder was quite active as a dealer from 1939 to 1969. He had 21 auction sales, the last eight sales were in conjunction with local numismatic associations, but only about a half dozen F.P.L. have surfaced. I had the pleasure of being asked to speak at the Red Rose Coin Club in Lancaster, Pennsylvania June 4, 1990 the subject 'Numismatic Literature.' After my talk Paul now retired came up and introduced himself. He had suffered a stroke, but was still hail and hearty. I recalled I had the

pleasure of auctioning off some literature, duplicates of his library in the late 1970's.

Sheraton Coin Co., Boston, Mass. Although I had never met the owners — two brothers named Henderson, they were also the owners of the Copley Plaza Hotel and at that time were beginning to build the Sheraton Hotel Chain, hence the name of the coin company. They became interested only in United States Large Cents and bought them by the thousands. The chief suppliers were Malcolm Chell-Frost, Harold Whiteneck, a dealer named Klein and myself. To my knowledge the only FPL to surface is the one in Remy's book.

Harold E. Whiteneck, Boston. A member of the Boston Numismatic Society, during the reign of Shephard Pond, as were most dealers and collectors members of this prestigious organization. It was the fine friendships generated at the monthly meetings that prompted the Boston Numismatic Society to ask me to conduct the numismatic sale in Boston, August 21-25, 1948, on the 57th Anniversary of the American Numismatic Association. The Official Program and Auction Catalog had 126 advertisements from dealers and collectors, I believe a record not ever exceeded.

Remy Bourne, I look forward to your Volume Five.

Fixed Price Lists 1940-1949

Pete Smith

Remy Bourne's study of fixed price lists has now reached the decade of the 1940's. As with the previous studies, I have been asked to review these lists from the perspective of a researcher and collector of early copper. What follows are some observations and things I found interesting.

The Second World War limited the number of lists produced. Paper recycling efforts reduced the number of copies that have survived. Most lists seen are from the years 1945 to 1949.

Are FPL worth study? Many coins sold in the 40's have not appeared since. The FPL may be the last public record of their existence. In other cases these are the coins that have emerged into the market in the past five years.

Major collectors and collections were in transition in the 1940's. Tom Elder and George Clapp both died in 1949. Collectors Brown, Halpern, Lapp, Reiver, Rose, Sheldon and Starr were veterans returning to normal life including building collections. Hines died in 1946. His collection was absorbed by Sheldon and Starr with duplicates sold by FPL. Sheldon was forming his final collection. It was sold intact and except for duplicate pruning remains intact. In 1945 the Newcomb late date collection passed to Floyd Starr. The coins would not reappear until 1984. The Brown, Halpern and Rose collections have been auctioned within the past few years. That generation is passing custodianship on to this generation.

Dozens of dealers offered half cents and large cents at fixed prices. Most of these lists were generic listings of coins by date or major type. Most offered common circulated grades. My interest was in the lists of attributed coins with rare varieties or choice condition. There were other sales equal in importance that I will not describe since their scope was basically similar.

The Celina Coin Company of Celina Ohio had a good run of Half Cents and Large Cents in their FPL. Early date cents were attributed by Doughty and Newcomb numbers. Here are some examples from their undated (prior to 1946) Price List No. 11:

1792 Silver center cent AW-8 R-12 Unc \$ 600.00

1793 C-9H (S-9) Wreath U Gem	\$ 300.00
1793 C-12-L (S-13) Liberty Cap from Brand Collection Uncirculated	\$ 1250.00
1794 H-39 (S-31) Unc	\$ 65.00
1795 D-67 (S-75) Lettered edge U	\$ 250.00
1796 G-A (S-81) Liberty Cap Unc. with proof surface	\$ 150.00
1798 D-121 (S-187) Small date U part red	\$ 90.00

Chicago dealer Charles Green did business under the name of his wife, R. Green. He offered a nice selection of Proof, Unc and high grade coins in his lists. His Bargain List No. 34 of August, 1948 had:

1793 (Half Cent) G.#4 R.#5 Rare UNC	\$ 110.00
1796 G.#1 R.#6 Pole to Cap Smooth even wear F. Dark Steel	\$ 225.00
1804 G.#4 R.#2 Spike on Chin UNC Olive	\$ 20.00
1831 G.#1A Lg Berries Restrike. Only 3 known Broken Rev Die Ex. Rare PROOF	\$ 150.00
1849 G.#1 R.#9 Lg Berries Sm Date V. Rare abt 5 know. Original BR. PROOF	\$ 100.00
1794 (LC) H.#33 C.#36 (S-44) On plate in C. Book UNC	\$ 70.00
1796 G.#16 (S-105) Very Rare Only 3 or 4 known V.G.	\$ 25.00
1797 D.#96 Ex. Rare V.F. (S-142)	\$ 42.50

The list had over 50 middle date cents in UNC with prices in the \$6.00 to \$15.00 range. Every cent from 1845 to 1857 was UNC at \$2.00 to \$6.00. Lower grade pieces weren't worth listing. Green's November-December list of 1949 had these descriptions:

1793 Crosby 11J (S-11) Slight edge dent on Rev. AMERICA and few leaves (as on Rev.) shown before face & below neck of Liberty. Perhaps unique as such. UNC.	\$ 200.00
1796 G.#15 Bust type. Perfect semi-proof. From French col. #126. Strange as it may seem a western col. also has a coin of this same description & same French no. & same G no & sold by the same well known dealer UNC	\$ 175.00

- 1794 (Large Cent) Hays 5 - Chapman 5. (S-21) Uncirculated, well centered with bold impressions. Medium brown color with a semi-proof surface. Several die imperfections on obverse. A scarce variety and in this condition a rarity. Only a few as such known to exist. \$ 80.00
- 1794 H31-C14. (S-36) Practically uncirculated. A most beautiful steel colored cent, one of the nicest I have ever seen. R7-of extreme rarity. It is said there are not more than 10 specimens of this variety known, I would say it is unique as I do not believe there is another like it. Well centered, sharp and perfect in every respect. \$150.00
- 1794 H13-C44. (S-55) Edge reads "ONE HUNDRED A DOLLAR". Very near uncirculated, just a tiny bit of wear shows on hair. Perfectly centered on both sides. I have never seen this variety offered with the above description. Possibly unique. . . \$ 50.00
- 1837 Not in Andrews. Newcomb No. 15. Rarity 6. Very near uncirculated, mint red and brown. Perfectly centered and sharp, high edges. Said to be one of the rarest varieties of large cents. One in fine to very fine condition was offered in the Pearl sale for \$40.00. This one certainly is a bargain. \$ 32.50
- 1841 A-1. RED AND PURPLE PROOF. Perfect in every respect except for a few small tarnish spots on obverse which do not mar the looks to any extent. All large cents in proof are really rare, much more so than is generally believed. No collection is complete without at least one or several of them. You will find several beautiful proofs offered here and I have priced them very reasonable. (sic) \$ 45.00

A fixed price list issued in 1947 by the Sheraton Coin Co could be the topic for an article by itself. The first of two sections is a list of large cents by date and major varieties in eight grades. Among the highlights are a 1799 cent in Unc for \$2500, a perfect die 1804 and broken die 1804, both in Unc for \$1000 each. The second section has 45 varieties of 1794 cents with some offered in several grades.

Highlights include the following:

- Hays 8 (S-48) Fine \$200.00 V. Fine \$300 (yes, two of them)
- Hays 9 (S-52) Fine \$200.00
- Hays 27 (S-33) Good \$ 40.00
- Hays 28 (S-34) Good \$ 40.00
- Hays 41 (S-38) V. Fine \$125.00 Ex Fine \$200.00

The list says, "Sheraton Coin Co. . . is now the country's largest coin company that specializes exclusively in large cents. We carry a complete inventory of almost every known die and an almost complete collection of uncirculated large cents from 1793 to 1857." The nucleus of their stock came from Dr. Sheldon who was disposing of duplicates acquired after merging the Hines collection into his own. The principals of the company were Robert L. Moore and Ernest Henderson. Harold Whiteneck was an employee who later bought out the remaining Sheraton coin stock.

The ink had hardly dried on the catalog before the bulk of the collection was consigned to Numismatic Gallery for the 1947 ANA auction. The short term adventure into the large cent market did not produce a profit.

Does an uncirculated 1799 cent exist? I asked this when I reviewed the FPL from 1900 through 1929. Max Mehl reported the sale of one for \$2500 in 1927. Henry Hines bought a high grade 1799 from Wayne Raymond. Hines paid \$2500 for the coin which was later in the Sheraton FPL. It failed to bring the \$2500 in 1947. It brought \$1500 in the 1947 ANA auction. Sheldon says it was only an AU 50 when he saw it last in 1945. He called it the finest known with the second coin a VF 35.

This coin was offered again when Kosoff sold the Sloss collection in 1959. At that time it was called the "KING OF CENTS" and described as an AU 50. It had an estimate of \$8000 but realized \$10,500. Someone with a lot of time to kill can check to see if this was the first cent sold for five figures.

It was Kosoff's firm Numismatic Gallery that produced the finest copper FPL of the period, the Pearl Collection. Unlike other FPL mentioned that represented dealer stock, this represented a methodically formed collection. It would be presumptuous to attempt to pick out highlights. The collection itself is the highlight.

The catalog had 479 lots and 16 plates illustrating 288 specimens. The 1793's began with the Mickley-McKenzie-Hall-Brand example of S-1 and finest known as an MS60. The remaining 93's were high in quality but short on rarity with S-2, S-7, S-12, S-15 and S-16 missing from the collection. The 94's were missing Hays numbers

The first description is one of few listings indicating die state. This last description is an indication that there were pedigree problems already in 1949.

James Kelly had good variety of Half Cents and Large Cents offered in his 1946 Spring Price List No. 22. Some examples:

1793 Chain variety. C. 1-C. (S-2) Light golden Brown. Extremely rare Condition. Uncirculated	\$600.00
1794 Hays 51. (S-70) Full border Gem coin. Unc.	\$100.00
1795 Milled edge variety (S-79) of which only 3 are known. About fine	\$350.00
1796 Rare Liberty variety. Gilbert 10. (S-104) Very rare. Extremely fine	\$100.00
1797 D. 107. (S-126) Light golden brown: Proof surface. Uncirculated	\$125.00
1798 D-117, N-6. (S-148) Double profile Uncirculated	\$ 75.00
1798 D-118, N-26. (S-166) Uncirculated	\$ 75.00
1798 D-118, N-27. (S-167) Light red and olive. Uncirculated	\$100.00
1798 D-122, N-16. (S-157) Light golden brown with considerable original red. Some. proof surface. Uncirculated	\$125.00
1811 over 10 (S-286) dark steel color; sharp as a cameo, well centered gem. Unc.	\$150.00
1841 Perfect brilliant proof	\$100.00

The 1796 Gilbert 10 (S-104) description had Liberty spelled with a "b" rather than an "h". One of the coins that did not sell from this list was the 1795 milled edge variety. It was offered again in his next supplement for \$250.00 and in his 1947 Spring Price List at a reduced price of \$175.00. It was offered at auction by Celina Coin in 1947 and bought in. Later it was offered at auction by Kelly in 1947 and again in 1948. Hollinbeck sold it at auction in 1953. The unwanted coin finally found a happy home in the Sheldon collection.

In 1949 Sheldon would publish his book on the early cents. A David Bullowa FPL from September, 1949, offered it with this description: "Sheldon: *Early American Cents*. New book of classification and description. 1949. 340 Pg. 51 plates Postpaid \$9.00."

In his 1945 list Kelly offered a new book. *United States Copper Cents, 1816-1957* by Howard Newcomb was available for \$5.00. The text was hand written rather than typeset. Quality conscious collectors will want to avoid any contact with such a cheap production.

Fixed Price List No. 5, dated November 1, 1945, from Milford Coin & Stamp Co offers basic dates and types of large cents in Fair, Good, Fine and Very Fine. The only remarkable coin was an 1803 large date, small fraction in Fair for \$10.00. It was described as Newcomb 23 (15C-QF). We would now describe it as S-264.

The Milford FPL seen out of context would appear to have little collector value. The list does not indicate the name of the proprietor. Placed in its proper historical context, this FPL documents a step in the remarkable career of one of the important names in numismatic literature.

The Milford store was moved across the street. The next few FPL would feature Foreign coins and Canadian tokens. Later the proprietor would move to Washington, D.C. and do business under his name of Frank J. Katen. The FPL would soon reflect a special interest in numismatic literature.

The November, 1946 FPL by Paul S. Seitz offered 61 early date cents attributed by Crosby, Hays, Chapman and Doughty; 48 middle date cents attributed by Andrews; 42 late date cents by Andrews; and 49 Half Cents attributed by Gilbert. Descriptions are unusually long and complete for the time. They include some amusing references. The following are offered without additional comment:

- 1796 (Half Cent) G-1. Pole to cap. Obverse is good to very good with date and Liberty very sharp. In fact, date could be classed as fine. Reverse is nearly smooth with only part of lettering showing. It is nice dark brown color, struck a little to right. Extremely rare and seldom offered in any condition.
A bargain indeed. \$125.00
- 1841 Large Berries. BEAUTIFUL IRIDESCENT PROOF.
Perfect in every respect. Extremely rare and valuable. Prices on these proofs have advanced considerably the past few years.
In my opinion, they will go higher. A real bargain. ... \$ 67.50

1 (S-20), 9 (S-52), 27 (S-33), 30 (NC-1), 31 (S-36), and 40 (S-39). Describing a collection by what is missing can be considered an acknowledgment of the fine selection that was present.

The catalog was the finest that could be produced at the time. Descriptions were complete. Attributions were according to the established references. The publishers were concerned that collectors might not have access to the Crosby and Chapman references for 1793 and 1794. They solved the problem by republishing them as part of the Pearl catalog. The middle and late dates were attributed according to the Newcomb reference that had just been published.

If the Pearl catalog was the best that could be produced, another Numismatic Gallery FPL was definitely low-tech. Their Fall 1946 list was reproduced from a typewritten original. It was 8 pages with 244 early dates, 217 middle dates, and 83 late date cents. The coins were generally in middle grade ranges with few rarities. Many coins were identified as from the Ballard collection. Others were from collections of Golding and Pierce.

The 40's represent a period of transition. Prior to this collectors of large cents attributed coins according to Andrews, Chapman, Crosby, Doughty, Gilbert, Hays and Newcomb. The new books published by Newcomb in 1944 and Sheldon in 1949 would become the standard references for the next generation of collectors. The Sheldon reference was not just an update of attribution descriptions. It introduced the Condition Census and a numerical grading system using numbers 1 to 70. The system had validity in 1949. Sheldon could scarcely have imagined how this system would be used in years to come.

The lists offered many proof, uncirculated and near uncirculated coins. Some varieties offered as Unc in the 40's are unknown in the condition census. Sheldon's condition census was published in 1949 shortly after these pieces were on the market. If they do not appear in the census they apparently did not meet Sheldon's standards for uncirculated. Overgrading is not a new problem.

Study of fixed price lists can show how numismatics has changed. It is also possible to see how many things have remained the same. Lists from the 40's show an interesting mix of both situations.

For sending me material that added to the knowledge of what is collectable.

Martin Gengerke

One cannot say thanks enough to Martin for the time he took to write these analysis that added to the body of knowledge of paper money collecting.

Pete Smith

He reviewed each list to thoroughly examine what he thought was important and of value to you the user.

(An Accomplished Numismatic Literature Collector)

Introduction

In each of the books that I have published it has been mentioned that this is "The Best Decade Ever" or its the "Dawning of the Golden Age of Numismatics". Why is this?

Perhaps, it is because each decade produces more informed collectors and dealers, a greater out put of research, and larger body of students of numismatics.

What this 1940's decade issue offers, unlike the past volumes, is that several of the participants are still among the collecting fraternity of today. Frank Katen, for example, is still an active dealer of numismatic literature. I am sure you will find his foreword in this book on the decade in which he started fascinating to read.

Now, come and page through the history of this book and see the handwritten fixed price list of A.J. Fink or compare the two Federal Coin Exchanges that were in existence in Ohio at the same time. You will also find many other interesting facts, figures and photographs depending on your individual interests and collecting endeavors.

This Listing has been done for both the literature collector and the numismatic researcher. While the general description is imperfect for the researcher at least this volume is a starting point.

Good Collecting,

Remy Bourne

The first Bulletin was accepted very well and many letters received. This has encouraged us to go on with the Bulletin.

Most of the bids received were Buy bids, this shows the trend of the market. If any one has duplicates of any coin to sell why not send them in to the Exchange and dispose of them while the market is high. Due to the fact that many of you people do not care to send in for the Bulletin each month we will be glad to send you a bill each quarter during the year for the Bulletin.

About four hundred copies of this Bulletin will be sent out this month.

We want you to write us any suggestions you might have to improve the Bulletin. A postal card will do.

RETAIL COIN LIST #21 FOR 1960 - ALL PRICES SUBJECT TO CHANGE WITHOUT NOTICE

For the first time in our twenty one years in business we have issued a new price list in the middle of the year. The price list of last August ~~will~~ is now void. We hope to be able to keep this list in effect until late this year, but it is possible that it will be replaced before then.

The big factor behind some of the almost unbelievable price increases on this list, is the growing number of coin hoarders. Some people say that 5-cent coins alone the mint marks are on coins are being sold and taken up about by 100 million and thousands. While of course prices are not high from the collector's market and the prices have gone sky-high on the money that are still in use.

A few words about our grading. We use the standard terms and conditions as listed below. We try to be very conservative in our grading, and errors can happen. If you think that a coin is over-graded just return it without charge. We will be in the original envelope, for refund or replacement. If you think that it is under-graded, just tell your friends so that that can be the case.

FAIR - Quite worn but date & mintmark readable. May be noted or circulated.

GOOD - Shows even wear. All major lettering clear. Clear and presentable.

VERY GOOD - Much better than good. Not too much wear. In some serious cases.

All letters & LIBERTY word, etc. are not sharp or clear.

FINE - A sharp clear coin. All lettering readable. No major flaws.

VERY FINE - The finest lettering is very sharp. The coin shows only the slightest amount of wear on the high points.

UNCIRCULATED - A coin in the condition in which it left the mint. An uncirculated coin may be tarnished. It could be further damaged.

It could have slight variations in color, as they all come from the same packed block in large bags.

IMPORTANT NOTE - It is impossible for us to have every coin in every condition in stock at all times. We ask you to please plan a reasonable reserve of coins to be used only if we are out of your first choice coins. We like many of our coins while the collector may look to us with their most common. As a supply of coins will save time & is time and trouble. For each refund to all coins a credit note if no supplementary coins is available.

TERMS OF SALE - Cash with all orders. Please add handling charge to coin orders under \$5.00, and 2% handling charge to supply orders over \$5.00. It costs up to 50¢ to mail three or four dollars of coins to the collector. You can see why we must have a handling charge on small orders. All American orders please add 50¢ handling charge to all orders under \$25.00. All orders mailed to Canada must be Registered, and Parcel Post to Canada is very high.

We have a ground floor shop in our new building in East Toledo, Ohio. If you come to Toledo, call us at OXFORD 1-360 and we will give you directions to our store. Our hours are 10:00 AM to 7:00 PM six days a week. We always have many coins not on this list in stock. Stop in and see us. Just seven miles from the Ohio Turnpike, and one mile from the Sylvania Avenue exit of the Toledo & Detroit Expressway, which runs north from exit 5 of the Turnpike.

IMPORTANT--It has been our experience in the past that a delay of six weeks is entailed by issuing a regular bound catalog, which means that a great many of the coins are sold before catalog is ready for mailing. A catalog of this type can be mailed within one week after printer receives the copy. IT MEANS THIS: THERE WILL BE FEWER DISAPPOINTMENTS ON ORDERS THAT ARE SENT US PROMPTLY.

ATTENTION--WE BELIEVE A CAREFUL STUDY OF THIS CATALOG WILL ENABLE YOU TO SELECT MANY ITEMS AT A LOWER PRICE THAN YOU MIGHT EXPECT TO PAY.

GREEN'S BARGAIN LIST #33, FEBRUARY, 1944
(My first list since May, 1944)

COMPLETE SATISFACTION OR RETURNABLE IN 5 DAYS FOR FULL REFUND.

For the first time I am listing an extensive stock of single coins as well as rolls. THANKS A MILLION TO THE MANY COLLECTORS AND DEALERS WHO HAVE MADE OUR BARGAIN LISTS A SUCCESS. Your continued support will always be appreciated.

Most of the single coins on this list I have in duplicate, and in some cases I have fifty or more of a kind. So do not feel that you have little chance of securing the coins you need. This is true not only of the later and more moderately priced coins, but of a number of early coins as well. For example, I have more than 20 of the 1798 Half-Dollars, and from 8 to 16 of most of the early Half-Dollars. I have more than 16 of several different dates of Gold Dollars - 2 1876 PROOF GOLD DOLLARS and SEVERAL EACH OF THE 1880 PROOF AND UNC. GOLD DOLLARS (of which only 1430 were made.)

The Buffalo Nickels we have been buying for years and have two complete sets as well as several of each date and mint priced (except 1916/17-D). DO NOT BE MISLED BY DEALERS OFFERING THESE COINS CHEAP. I WILL PAY MORE THAN CATALOGUE FOR MANY MINT-MARKED BUFFALO NICKELS. One catalogued at only \$12.00 I will buy up to 10 pieces, in WELL-STRUCK, BRIGHT, UNC. CONDITION, at \$20.00 each. I am referring to 1917-3. There are several others also much under-priced. I have spent considerable time and money trying to buy this series and I know how rare they are in WELL-STRUCK, UNCIRCULATED, BRIGHT CONDITION.

We do not hold your money and we send no substitute (unless you make a second selection). Your order will receive prompt attention whether it is a \$5.00 order or a \$5,000 order. For orders under \$5.00, please add 10¢ Postage.

MAY WE HEAR FROM YOU?

We send coins to many dealers and collectors on 5-day consignment. We are glad to do this AFTER YOUR CREDIT HAS BEEN ESTABLISHED. Please give the name of your bank and two business references if you are unknown to us. Orders accompanied by checks will be given preference in all cases.

We always give the Collector and Dealer the benefit of GOOD BUYS. We sold more than 225 rolls of 46-3 Nickels, one roll to a customer, none HIGHER THAN \$4.80 when many dealers were asking MORE THAN THREE TIMES THAT PRICE. We still feel this Nickel is over-rated though we have no rolls of 46-3 Nickels to offer at this time and we have more than 200 on the waiting list.

At this time we have a number of rolls priced MUCH UNDER THE MARKET. The 1936-P Helms and 1938-D Jefferson Nickels are two of them. Our list of U.S. Gold Coins marked for "DEALERS AND INVESTMENT-MINDED COLLECTORS" is the best you will find anywhere. The same is true of individual Gold Coins as well as single silver, copper, and nickel coins.

ALL COINS OFFERED SUBJECT TO PRICE SALE AND PRICE CHANGE WITHOUT NOTICE.

If you are selling your collection or duplicate rare coins, PLEASE send me a list with the prices you are asking. Sorry but I do not have the time to make offers. MAY I HEAR FROM YOU IF YOU ARE BUYING OR SELLING? YOU WILL GET A SQUARE DEAL AND NO WAITING FOR YOUR MONEY. THANK YOU.

LATE ARRIVALS: \$6.00 1939 UNC. \$378.00; \$85.00 1913-S A.V. \$250.00 (could be called UNC)

Q. Now, I have your statement and accompanying photographs. And I will ask you, for postage and insurance for your outfit. And second, you said it is not unusual for persons will be in the city. Is it not true, Captain Smith?

A. It is not true, and second, my wife and my money will be properly protected by the bank authorities, without your say so, but as I understand that you say my second child is now in the hospital, I will go to the bank and get this money.

LETTERED EDGE U.S. SILVER DOLLAR 1794-1804

Value stamped in edge "UNITED STATES SILVER DOLLAR ON HALF". The 1 number following date is variety number according to "Bolender" and "Hazelton" for the specialist in this series. The description gives the main varieties for general collectors. I have found that these "Grand-Laddy" dollars arouse more interest when showing a collection than almost any other coin. Prices on this series are very reasonable compared with others of the same era. I have about 75 on hand at time of list but of course most of them are singles, so if possible alternate orders will be appreciated. A lot of silver dollars same my way but even so, some varieties may be months showing up. I certainly would recommend getting at least some of these coins for the silver dollar is the basic unit of our monetary system. The "Almighty Dollar" should be well represented in every collection.

1795 (A6) Obverse-Long Flowing Hair, Rev. 3 leaves under wings VF 45.00
 1795 (B-14) Pillot bust reverse, Palm branch right-olive branch left reverse. Smallest eagle variety. VF 42.50

 1797 (B3) Obverse 16 stars 10 x 8 VF 44.00

All the above dollars have small eagle reverse, those following have large heraldic (Shield over body) eagle reverse.

1798 (B4) Rare. Obverse-13 Stars-Knob 9 in date. Reverse 10 arrows in eagles claw EF 57.50
 All following 1798 are plain 9 in date
 1798 (B-10) Obverse-spur on 9, reverse-5 small berries-13 arrows. This identical coin used for both obverse and reverse plates in "Bolenders - Early American Dollars". The coin from Charles Col. Green collection. EF 57.50
 1798 (B-12) Liberties line open, 5 berries-13 arrows VF 35.00 F 22.50
 1798 (B-14) High 8 - medium wide date VF 28.75

 1798 (B21) Rare. Very wide date, die lump between 9 and bust. Reverse - 10 arrows F 25.00

KUDOS to the REVINA COIN CLUB and its General Chairman Chris Gilboy for the wonderful 32nd Annual Convention of the Canadian Numismatic Association. Of particular note to yours truly was the issuance of a specially struck medal to 35 year members of the C.N.A. Only 7 were issued - such company as John J. Pittman, Jim Charlton, Sheldon S. Carroll, and others. My membership number is 67.

Q? Why else? But it's David Bowers! It's a toss-up between Bowers and the Stack's as to which catalogues and literature is the most wanted. At the moment we believe it. David has a slight edge. Hence we offer the following literature at half price or less. However we do not have many of each item. Maybe a telephone call?

O. David Bowers, Wilkes-Barre, Pa. All following are \$5.00 each, Bulletin No. 2, 1956.

NOTICE

Due to many requests and complaints from collectors in distant parts of the country, I am zone mailing these price lists so that every one will have an equal chance. Zones 6-7-8 will be mailed seven days in advance of zones 1-2-3. This includes all states west of the Rockies, extreme southwestern states and far northern New England states. Zones 4-5 will be mailed three days in advance. This includes states over three hundred miles from Dayton but, less than one thousand miles. This should make a much more equal distribution and, give every one an equal chance.

I would appreciate knowing when lists are received. In this way I can tell if any better timing is necessary to get the results desired. I am well informed as to the situation existing on the West Coast that, when they answer adds the material has in many instances been sold to customers who had the opportunity of ordering sooner. I wish to offer every one an equal chance at all material.

TERMS: Cash with order.

Every coin guaranteed genuine as described.

Orders filled as received. Cash remittance will receive preference when received in same mail. Coins sent to collectors who have an established credit, or those furnishing satisfactory references.

LESTER DOLLARS

(Below is listed a selection of the issues of Joe Lashier, one of the most interesting of all private issues in the annals of American coinage. These are all struck in silver, octagonal in shape, and contain one ounce of pure silver. They were made for various individuals and firms, each redeeming his own issues, and most were issued in small numbers. Those offered below are listed by the word name on the piece, and number stamped on each individual piece.)

Numismatic Fine Arts—Edward Gans

FOUNDED 1895, 200 N. BROAD ST., NEW YORK

Now 10 Rock Lane, Berkeley, California

THE BIG JOURNEY completed, I am settled more now, this time in my new home here in Berkeley, California, midway of San Francisco and its Golden Gate. Here, by my large numismatic library, are my stocks of Ancient Greek and Roman Coins, Renaissance Coins and Medals, and all our other fine stocks reaching from the earliest times to the modern.

I ask my old friends to continue our pleasant correspondence. I am prepared once again to send shipments on approval, to handle consignments, and to arrange for new Mail Auction Sales. Mr. Henry Grunthal continues to handle these Mail Auction Sales conjointly with himself on the East Coast and myself here on the West Coast. Price lists are again ready and yours for the asking. Numismatic service of every kind is once more available to you.

I solicit inquiries from new collectors as well as old. I am ready to help build up large collections and equally eager to help you find that rare or scarce coin you have been looking for. With my contacts in Europe as well as all over the world, I am in a position to give you the best in

These Medals were recently made available for sale to collectors.

To the best of our knowledge about 120 pieces were struck in Silver Proofs, of which 103 pieces remain. 45 Bronze Medals have Ribbon attached in Pike's Colors, with Colorado Bar and Pin. We have Purchased All of these two lots.

All the above circulated coins are bag run -- averaging from 70 to 90. I do not pick out the fine ones and roll the rest! All series from '33 up run mostly fine to very fine, of course.

Our list of circulated nickels in rolls will be ready for distribution about January 15. Drop a card if you should wish to receive a copy.

Thank you.

INVESTMENT TIPS:

The last of the 1946-D quarters are now moving into the Denver banks and being used for change as fast as the teller's cage call for quarters. I believe this coin to be a good speculation, judging from my own records, because of the small amount put aside by speculators and investors and the large amount diverted to circulation. Check as up on this one!

If you invest \$100 or more per year in uncirculated coins it will pay you to get on my mailing list for my DENVER MINT BULLETINS issued each month. The service is free. Just tell me you want the BULLETIN and that's all there is to it.

DUROS CONTRAMARCA DE ESPANA

CAPITULO 2

Segun las contramarcas Canadienses nos encontramos ante un nuevo problema. Tenemos un duro del Peru 1793 de Jaima contramarcado con el busto de George III, rey de Inglaterra (cosa muy corriente en la isla de Jamaica) y ademas una contramarca avalada con la letra "V" y encima una Jamaica) y ademas una contramarca avalada con la letra "V" y encima una coronita. Hemos tambien encontrada esta contramarca en una pieza de 2 reales de Mejico y sobre otra pieza de Francia. Hemos explicado que la "V" hera "5" por 5 shillings, moneda para la Isla de Jamaica. Hay numismaticos que consideran esta pieza acuñada por las Islas "Principe Edward" en la cuña del Canada, pero el Sr. Renaud, grand numismático Canadiense del Castillo de Ramezay (Calleccion Canadiense numismática en Montreal) no encontró jamas documentos algunos

BIBLIOGRAFIA

DINHEIROS E MEALHAS PORTUGUESAS, por J. E. Porto (Lisboa, 1949)

La casa A. Malder en Lisboa nos envia un librito sobre los dineros y mailas portuguesas por J. E. Porto "Dinheiros e Mealhas Portuguesas," un pequeño catalogo bien descrita y ilustrada dando descripcion detallada de todas las piezas de este periodo 1112-1383 con el valor de cada pieza en escudo. Encontramos este pequeño trabajo interesante y sobre toda para el que tenga dificultades en clasificar monedas de la edad media de Portugal.

Felicitaciones al Sr. Porto.

CATALOGO DAS MOEDAS PORTUGUESAS, por J. Ferraro Vaz (Lisboa MCMXLVIII).

Chegou no mundo numismatico uma obra famosa: a "Catálogo das Moedas Portuguesas" da Sr. J. Ferraro Vaz, parte Portugal continental 1640-1948.

O livro que trata das moedas de Don João II, até a República é um exemplo admirável da maneira sistemática de descrever um panorama de moedas.

A UNIQUE PIECE OF GREAT HISTORIC INTEREST

In the year 1100 A.D., on the wake of the Crusades, a religious body was founded in the Holy Land, which was to combine the knights' rule of the Order of the Holy Sepulchre with the Hospitality of the Order of San Giovanni. In 1106 it received a charter from Pope Innocent III, which was confirmed in 1109 by Pope Innocent III. In the year 1210 Pope Honorius III ruled that knights only should become its Grand-Masters. The Order grew to great political importance, and one of the Grand-Masters became the most influential statesman in Italy during the first part of the 14th century, guided and furthered by Pope Gregory IX. It was in that period that the Order initiated its own coinage, gold being minted only sparingly.

This Twelve-Ducat Gold Piece, unique and hitherto unpublished, is of great splendor and heraldic beauty. It was struck in the year 1634 in the name of Grand-Master Archduke Maximilian, grand-son of Emperor Charles V. Maximilian is known for having restored the Order's institutions in Italy and Spain and for having taken part in the wars against the Turkish Empire.

The coin shows the standing Grand-Master, crowned, armored, and holding a long five-pronged sword in his right hand, between his family shield and the Knight's Helmet. The reverse shows the Grand-Master in full armor and helmet, mounted on his equally armored horse, and carrying the banner. Underneath is the large coat of arms of the Order, flanked by two eagles in the center, and around are the shields of the Order's 14 possessions. The preservation is F.D.R.
